I am a skilled Full Stack Developer with 3 years of experience, specializing in the design, development, and maintenance of scalable and responsive web applications across various technology stacks. I have a strong grasp of the software development lifecycle, from initial concept to final testing, and I excel in communicating complex ideas effectively, both verbally and in writing. Known for my collaborative approach, I have consistently contributed to team efforts and thrive in challenging environments that require continual learning and innovation.

Experience

Software Developer
SantimPay Financial Solution

2024- present
